

GROUND GOLF

CATALOG 2024

YURIHAMA MACHIZUKURI Co.,Ltd.

From the Birthplace of Ground Golf to the GG Enthusiasts Around the World ~ Yurihama, Tottori Prefecture, Japan ~

Since its creation in 1982 in the town of Yurihama (formerly Tomari), ground golf has become a sport loved by many people. Along with ground golf's increase in popularity, the technology and skill that has gone into the manufacturing of the clubs, balls, and other equipment, has also greatly improved over the years.

With the cooperation of the manufacturers of the Japan Ground Golf Association's equipment, Yurihama, the birthplace of ground golf, is pleased to help make this equipment available to overseas GG enthusiasts at a special discounted price. We invite you to try this high-quality equipment, which brings together the manufacturing capabilities developed and honed in the country that brought you the sport itself.

We hope that we will be able to further expand the circle of friendship and promote healthy lifestyles through ground golf!

YURIHAMA MACHIZUKURI Co.,Ltd.

How to Place an Order

- ① Please describe your desired product in English or Japanese on the "Order Form"(Page 3 of the catalog). Please email "Order Form" to the Yurihama Machizukuri Company at the following email address:
[yurihama.ground.golf@gmail.com]

The Yurihama Machizukuri Company will contact you and let you know whether the merchandise is available and in-stock.

After confirming the contents of your order and the items available, please inform the Yurihama Machizukuri Company of your final order.

The Yurihama Machizukuri Company will then send you the "Order Confirmation Form". The bank details for necessary for payment will be listed on the "Order Confirmation Form". Please complete payment in Japanese yen.

Once payment is confirmed, we will arrange the product. Therefore, it takes about one or two weeks from the completion of payment to the shipment of the product.

Once all the items you ordered have arrived from the manufacturer to us, we will ship the items to you.

Important Notes

- *Products are basically sent by "EMS(Express Mail Service)" of Japan Post. However, the method of shipping products will change for countries that are not eligible for Japan Post.
- *You will be responsible for any bank charges incurred in your country and Japan.
- *Customers are responsible for any fees incurred during customs clearance.
- *It will require roughly 1 to 4 weeks for the package to arrive at customs in your country after shipment.
- *We will bear the shipping fee for the time being, with the feeling of gratitude for your purchase.

01 2-HOLD GRIP FOR EASY CONTROL
By enlarging the grip end, it prevents slipping out and enhances the hold feeling during the swing.

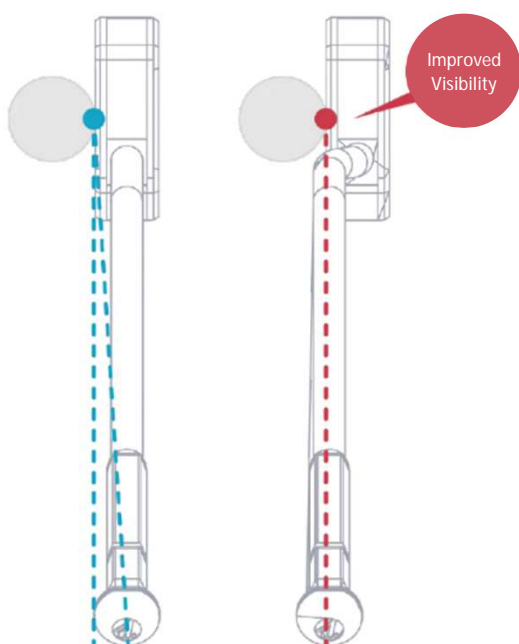

02 EASY TO GRIP FOR ANYONE WITH COUNTERBALANCE
By lowering the head balance, it improves the operability and the goodness of the swing, leading to a stable swing.

03 3D SHAFT WITH NEW FACE BALANCE SYSTEM
By making the shaft a three-dimensional structure, it is possible to directly approach the sweet spot during the swing.

04 HUMAN ENGINEERING SMOOTH HEAD
A smooth swing is achieved with a shape that allows you to hold the club at any angle and a sole that has a calculated swing angle.

Conventional Straight Club

ASPRYER 3D Club

The shaft has a three-dimensional structure. Therefore, compared to conventional products, the core and the striking surface can be visually recognized straight.

ASPRYER 3D Club

The three-dimensional structure makes the face evenly balanced and the head parallel. It becomes easier to make a stable swing.

CLUB

Club List	Face	Feature	Weight
Ultimate Urethane Club 2 BH2882  P38	Urethane Foam	Thick, soft face for a bouncy ball feel. The large sole and scratch-resistant face provide a sturdy design that can withstand hard use.	Around 635g (in case of 84cm)
Karin Club 6 BH2896  P39	TPU	Harder and heavier than Persimmon, made of famous Pear wood. Duraface with two layers of hard grade TPU material for a pleasant hitting sound.	Around 640g (in case of 84cm)
Persimmon Classic 5 BH2914  P39	Carbon TPU	Equipped with a 3-layer face made of carbon sandwiched between TPU. Powerful hitting by utilizing the weight of the club.	Around 650g (in case of 84cm)
Powered Sole Club 3 BH2863  P40	Glass Fibre TPU	Equipped with a 3-layer face made of fiberglass sandwiched between TPU. T-shaped head with low center of gravity makes it easy to aim straight.	Around 625g (in case of 84cm)
Straight Drive Club 2 BH2857  P40	TPU	Jagged structure inside the two-layer TPU face enhances repulsive performance. Excellent directional performance with a target line for easy ball aiming.	Around 610g (in case of 84cm)
Double Force Club BH2875  P41	Hard Surface Carbon Soft Surface Urethane Foam	Club for tech-savvy users, featuring hard and soft faces on both sides. Choose as needed.	Around 610g (in case of 84cm)
Impact Slugger BH2501  P41	Bakelite	Entry model with slender shaft. Equipped with a hard bakelite face. Features an exhilarating sound.	Around 615g (in case of 84cm)

Urethane Foam

Soft face reduces hand impact and ensures good hitting feel. High abrasion resistance, ideal for dirt and gravel surfaces.

TPU

New material provides excellent hitting feel, firm sound and elasticity. Excellent abrasion resistance. Versatile across fields. Varying hardnesses and layering of materials increase elasticity.

Carbon

Hard face featuring a high pitched, pleasant hitting sound and good ball release. The protective coating on the surface is hard to deteriorate, making it easy to hit on turf fields.

Club Size Guideline

Please use this as a reference when you are not sure about the choice of clubs due to differences in individual physiques.

BALL

Ball List		Structure	Weight
Navigation Ball BH3851  NEW COLOR	P43	Hollow	Around 94g
Air Blade Meteor BH3806 	P44	Hollow	Around 93g
Shoot Ball BH3460 	P44	Solid	Around 94.5g
Light 76 BH3412 	P45	Solid	Around 76g
WIN4 BH3433  NEW	P45	Solid	Around 94g
Airblade BH3802 	P46	Hollow	Around 93g

Hollow

The center of the ball is hollow. The hollow center of the ball makes the outside of the ball heavier, so centrifugal force acts on it when it rolls, and it rolls well. In order to maintain strength, a hard and rigid resin is used, making the ball very responsive.

Solid

This ball is filled with resin all the way to the center of the sphere. It is characterized by its vivid color. The inner core repels and rolls powerfully. The hardness of the resin between the inner core and the cover layer that covers it can be varied to create a ball with good feel.

Ball Handling

- Do not use for any purpose other than ground golf.
- Store in a place away from direct sunlight.
